A gorgeous georgian lady, is quite a sight to see,
For some splendid beauty tips, pay attention listen to
me.

White is beautiful dear ladies, smear your face with
paint of lead,
Never mind the lead had made the men who mixed it ill
or dead.

Take some silk of red or black, cut a circle or a crescent,
Stick it on your face to cover, smallpox scars, it's much
more pleasant.

Shave your eyebrows, clean away, take a trap and
catch some mice,
Make flash eyebrows with the mouse skin, stick them
on, you'll look so
nice.

Next you need a monster wig, if you want to look real
smashing,
Once your wig has reached the roof, then you'll be the
height of fashion.

Decorate your lovely hairpiece, use the feathers of a
parrot,
Add some ribbon, fruit and flowers, from your ear then
hang a carrot.

Make your face look soft and chubby, pack your mouth
with balls of cork,
Hang your flash teeth in the middle, hope you don't
choke when you talk.

Now you followed my advice, last of all you need a fan,
Flutter it oh so demurely, then your sure to bag your
man.
