[Verse 1:]

Boy your standin real close to me  
Tell me now what's it gonna be  
U like what you see  
But lovin don't come easily  
Now your whisperin in my ear  
All the things that I wanna hear  
Now let me make it very clear  
Words are not enough for me  
Did you think that you could smile and steal my heart  
away?  
Can't deny I like your style  
But it just don't work that way

[Chorus:]

Oooh  
I'm kinda feelin ya right now  
U keep me standin tight now  
It's gettin hard to fight now  
Still I wonder, wonder should I  
Oooh  
U know their playin my song now  
U know your turnin me on now  
The feelings gettin strong now  
Still I wonder, wonder should I

[Verse 2:]

Back n forth  
Baby round n round  
So high that I can't come down  
It's too late to turn back now  
Still I'm scared to lose control  
Feel the heat burnin like the sun  
Feel the beat as we move as one  
Don't stop till the night is done  
Hold me close boy  
Don't let go  
Still I got to know if this is real or just a dream  
Because in the mornin my true love is what I wanna see

[Chorus:]

Oooh

I'm kinda feelin you right now  
You got me standin tight now  
It's gettin hard to fight now  
Still I wonder, wonder should I  
Ooh  
U know they're playin my song now  
U know your turnin me on now  
The feelings gettin strong now  
Still I wonder, wonder should iiiiiaiiiiiiiiiiiiiiii
