## Verse One:

Where has my life gone, living is so hard  
God, won't you help, this has gone to far  
Insults, exploitations, it all hurts me  
You have not helped, so how can you be  
Jesu Cristo, thank you so much  
I fell and surrendered, lost my evil touch  
Fell towards the sky, but I still hate life  
All I want is to, end all of this strife

## Chorus:

I don't want to stay down, I want back my life  
I am trusting you, to take away my strife

I am in a sad world, my life plainly sucks  
I want to be falling up, lord, please change my luck

## Verse Two:

I am trying so hard, to believe you exist  
I am a target, of ignorance and bliss  
I try to praise you, music is my prayer  
Few people like me, but I know you care  
My arms are reaching, to put you in my heart  
But look around, my whole life is dark

CHORUS X 2
