

## J-Wall "False Beliefs"

Visit "[False Beliefs](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Verse One:

Why must every night feel, like I am living in hell  
Caught by Satan's wrath, that is when I fell  
The holy spirit, how can he be true if he did not care  
He made me fall quickly, made me realize life isn't fair  
I can't stand to live, in a world occupied by love  
It is something untrue, there is no help above  
So, listen, when I say, God is a false thing  
There is no higher power, that is why I sing

Chorus:

Nothing there, no one to help you out  
No one to help you when you shout  
Some people think, that God is real

Well people, why can't you heal  
It is not true, beliefs are lies  
You are in pain, I see it in your eyes

Verse Two:

Listen up, you are in denial  
You have believed in a God, for a great while  
Well, I tell you, you've been wasting your time  
In my own words, I made this rhyme  
He never helped me, solved my troubles  
On Noah's ark, he led them in doubles  
But with us all, he did not help even one  
He will not help, even when life is done

CHORUS X 2
