Verse One:

Ever since, my girlfriend moved away
My life has been a total mess
On my shoulder's, a huge burden lays
And every minute is full of stress
I got so lost, in all of my life
I am not sure what is good or bad
I may have just, lost my future wife
She was all I ever had

Chorus:

My life has been so unorganized
Since I lost my girlfriend

My life is oh, so, unorganized
And my heart cannot mend

Verse Two:

I tried to work, but then I quit
All I could think of was her
The job I had then, made me feel like shit
Massive idiots, they all were
I need some time to myself
To reflect and think
About the cards that I have been dealt
I can not let my life sink

CHORUS X 2
