

Cadaveres De Tortugas

"Mangod"

Visit "[Mangod](#)" on MotoLyrics.com

Shadows are gathering to put a spell on you
They promise you fame - You get hypnotized
You don't care that they fade the sunlight away
You just shut your eyes, shut your eyes

Something's gone wrong, can't you see: you're alone

Mangod - Show me what you've got

Take a wiff of the breeze, learn to live, learn how to
feel

What goes around, comes around

Can't get off with impunity

Sun will show you, what needs to be seen

What goes around, comes around

Welcome to reality

Why don't you hear it: it's loud like a scream

The music you're listening to is full of fear

So many times you seem to be lost

The walls that you built from concrete are for real

At least you should feel: my eyes are unsealed
