[Intro: Speech of Roosevelt]

"Here is the challenge to our democracy  
In this nation I see tens of billions of it's citizens  
A substantial part of it's whole population  
Who at this very moment are denied the greater part  
Of what the very lowest standards of today  
Call the necessities of life"

[Verse 1: Huggy Bear]

Explaining plans saving camps you raining on tobacco  
plants  
Secret handshakes playing in-intentional avalanche  
Spreading AIDS, ISC's, I see a fucking tendency's  
Fucking shit up overseas the pope's staring down on  
me  
Do never mention enemy, in strike dependency  
It's a multi plea fee, it's the Bildenbug comitee  
International currency with my gold two plates some  
paper money  
It's the metallic strip on your driver's license  
Genetic science, it's a cross rebel defiance  
Rare racial riots it's control of the population  
One world, no more nations, grow test creations  
The eugenics debate, plans to make the perfect race  
It's aristocratic, statik the means and outfit  
Having chicks, Global Economics is the book I read  
The sheik battled on Bagdad and ?alter all to turn up  
dead  
It's the slave trade, drug rate, assasination state  
Got me achieving chrome with little bald chemo sweets  
The secret that I won't keep the mouth rebel treasure  
Intelligence with avalanches, it's earthquakes  
measured  
Another Mason president with secret pieces of the  
crusifix  
On the cruiseship to each of them two-thousand in  
public-housing  
It's propaganda and I'm slick disguised as entertainer

Rated R a dappin sour, and set some ties to space  
ships  
A nuclear device headed for Jupiter where network tv  
keeps her stupider  
It's human spade a-nuded it's your baby's future  
The I ensign the periment, the spy inside your crib

[Verse 2: Kobayashi]

Merely writin the cyber races I stay off in the space  
My name my life to cut in place  
From Mad Indela to her place  
Cop it a floppy disc, she plays a game, her life at risk  
Watch my foes be amiss around her mouth a secret  
date  
Fuck the fuck, the one and other, mix shit, I all my own  
big brother  
The biggest player hater, keep three economic  
terminators  
It's terminator flow at class and it's invisible sister  
Mekazz  
Where the rich get richer meanwhile the poor just get  
their picture  
In the local Times from murder 1 to petty crimes  
Injust race climb to keep U-ban out of time  
And out the light shines, infrared inspection of the  
mind

Contest, nonsense to tappin a line out of time  
To drum a life of our numbs cause search to wards for  
gettin numb  
As the market starts to plumb, I wonder where this  
world goes  
So rise and time will expose how they try to keep hit  
So be the knowledge got spittin on the world of store  
They can't be whole without a war with revelations for  
more  
Scan your card at the store, fingerprints to open a door  
Easy pass so you can pass off eliminate cash  
Keepin taps in your ass, everywhere you goes  
Wipe your car, spillin virtual dough bought it in an  
attractive trackin  
Cause aksin on the low I had to hack in  
Results in encryptic codes crackin now we have no  
defense  
And our backs against the fence a la Prince  
Computers so real that they can talk make kind a life in  
shock  
The christian's is gettin dark \*echos\*

[Fragment]

"It's believed that these changes are so subtle

That they have already begun taking effect and  
The makings of a new sociable state  
Are in fact already among us"

[Verse 3: Trip]

Everybody flip a dollar over, scrutinizin'  
See the truth realisin the Cyclops the object in the  
socket  
That's tri-angular watch the Gang Starrs  
Bangle presentangle strangle  
Your computer data-basically it places a call with  
Armageddon  
Fuck that I'ma get this cause it's armageddon, next tip  
let's get out of here  
It's pride in here too many cats runnin around in here  
Changin the currencies sent him around the sphere  
burnin eternally  
Although you think it's 'ternal the globe is spinnin it's  
really controlled  
By those who lead to mislead as tricknology gets led  
the mouse of microchips  
And the fiver opt, tickin testin clock tickin plastic like  
cock when it's tickin  
Christ it's feminin watch millenium watch it pendium  
cash freeze zero degrees  
Like prime peridium pity slum and the citizens who  
wanna know  
Y2K fucked up they wanna know B-I-N-R-Y digital  
Even though the environment is spies with higher  
lightin it  
My mind is in daily types of pleasures I soak it all up  
But I filter that I caught up and contest device with  
overlappin infractions  
Made objections poppin the subtraction creatin a class  
that lacks action  
Mold the world by what you tellin it meltin it swellin it  
Watch all the dwellin it verbal relevant  
Use verbal elements that confuse the rest ?lent  
Of you intelligence you assumin that you can fuck with  
the Illumen  
But they sell a bit, secretly  
Shhhhhhh
