"Got To Be Going"

Iâ€™m viewing life as a playground to play on
everybody wants to give advice
using the bottle as an icon to pray on
is my religion without compromise

Iâ€™ve seen it all through the eyes of a blind man
his destination led me back where I was
she loved me then she loves me now
got to be going

she said her peace at the break of December

I know I lost her and sheâ€™ll never return
itâ€™s such a blur that itâ€™s hard to remember
man I had it coming I just didnâ€™t know when

going to see her was to find consolation
hoping the final bridge we had hadnâ€™t burned
I rang the door bell - nobody answered
I tried the lock but my key wouldnâ€™t turn
