[Intro:]

I feel like somebody's
Taking my heart
Stop throwing it away
I don't want it anymore
I don't wanna feel like this no more

[Verse 1:]

I'm like a bird with no wings to fly
Can't go no where
No matter how I try
Like a pair of eyes
With no tears to cry
Feels like I'm barely alive

[Hook:]

I just wanna rip my heart
Out of my chest
I'm fed up
And put it in a box away
Tie it to a rock
And throw it over the edge
And let it sink to the bottom
Of the Atlantic

[Chorus:]

Like the Titanic
That was lost at sea
Let it sink to the bottom
Of the Atlantic
I wanna lock it up
And throw away the key
Let it sink to the bottom
Of the Atlantic
Let it sink to the bottom
To the bottom
Let it fall to the bottom
To the bottom
Of the Atlantic

[Verse 2:]

It's like I'm bleeding internally

And I can feel sharp pains in my chest
It's like the doctor
Ran out of my medicine
And I can feel in through my flesh

[Hook:]

I just wanna rip my heart
Out of my chest
I'm fed up
And put it in a box away
Tie it to a rock
And throw it over the edge
And let it sink to the bottom
Of the Atlantic

[Chorus:]

Like the Titanic
That was lost at sea
Let it sink to the bottom
Of the Atlantic
I wanna lock it up
And throw away the key
Let it sink to the bottom
Of the Atlantic
Let it sink to the bottom
To the bottom
Let it fall to the bottom
To the bottom
Of the Atlantic

[Bridge:]

Like woo
I'm sinking at the bottom
And it's going down because of you
Gotta let it go
Just didn't know what else I can do
Cross the seven seas
But still I'm lost and so confused
Cause I just can't take it
No need to fake it because it's true

I'm sinking at the bottom
And it's going down because of you
Gotta let it go
Just didn't know what else I can do
I just wanna rip my heart out of my chest
Throw it away

[Chorus:]

Like the Titanic
That was lost at sea

Let it sink to the bottom
Of the Atlantic
I wanna lock it up
And throw away the key
Let it sink to the bottom
Of the Atlantic
Let it sink to the bottom
To the bottom
Let it fall to the bottom
To the bottom
Of the Atlantic

[Bridge:]

Like woo
I'm sinking at the bottom
And it's going down because of you
Gotta let it go
Just didn't know what else I can do
Cross the seven seas
But still I'm lost and so confused
Cause I just can't take it
No need to fake it because it's true

I'm sinking at the bottom
And it's going down because of you
