Well you can't see me - I'm not here
But I know everything you fear
And I can drag you down
And cloud what once seemed clear
But you can't see me - I'm not here

And I can teach you how to cry
And I will fill your mouth with flies
So tell me all your secrets
I'll tell you all my lies
And I will teach you how to cry

I'm tripwires - Landmines
I'm tripwires
For you to find
I'm tripwires
I'm tripwired
I'm landmines for you to find

My mouth is numb
My tongue is still
My voice is cigarettes and milk
I have become a void
Impossible to fill
My mouth is numb my tongue is still

I'm tripwires - Landmines
I'm tripwires
For you to find
I'm tripwires
I'm tripwired
I'm landmines for you to find
I'm landmines for you to find
I'm landmines for you to find...
