Buried treasure, all that hidden loot
She didn't seem so dangerous, so harmless yet to boot
You break the ice, she'll turn on you, she's way beyond
the law
She yells freeze, when you want her to thaw
She's a dead-aim, sure shot, sweet?
What sticks right out her chest, she's got aiming right
at you
She'll make a sharp inspection, from head to toe
She'll slap her handcuffs on, and say, "Honey you can't
go"

Stick 'em up
Stick 'em up
Concealed weapons
Most dangerous you ever saw
Stick 'em up
Concealed weapons
Concealed weapons
They oughta be against the law

You might have her covered, but there ain't no way to
stop her
She's got her secret weapons, and there's no way she
will drop them
She can change hands, turn around, take a fancy shot
If you can put the bullet, into her precious spot
Spread 'em out, palms down, up against the wall
You've been had, but you ain't sad, ain't no army you
can call
And when she pats you down, you best not take a risk
Speak not, move not, when she starts to frisk

Stick 'em up
Stick 'em up
Concealed weapons
She's gonna beat you to the draw
Stick 'em up
Concealed weapons
Concealed weapons
They oughta be against the law

She didn't know, that she was packing
She didn't know, my heart was cracking
She was shooting, with live ammunition
She was attacking from ever position
She had me pinned down, tight on the floor
She blew me away, and I was hurting for sure

Concealed weapons
Concealed weapons
They oughta be against the law

Stick 'em up
Stick 'em up
Concealed weapons

Stick 'em up
Stick 'em up
Concealed weapons
Most dangerous you ever saw

Stick 'em up
Stick 'em up
Concealed weapons
They oughta be against the law

Stick 'em up
Stick 'em up
Concealed weapons
She's gonna beat you to the draw

Stick 'em up
Stick 'em up
Concealed weapons
They oughta be against the law

Stick 'em up
Stick 'em up

Well let me tell you about those concealed weapons
They oughta be against the law
