[Bounty Killer]

I saw these fools tryin to get around, tryin to let me
down

And all dat, ha but I got an easier way to let dem drown
Wit these Guns of Navarrone, I shall shoot dem like Al
Capone

Take dem to the zones of bones, like dat WELL

begins chanting and rhyming

[Prodigy]

Yo dunn, they tried to knock me down, bury me under
Big pipes soundin like thunder

Skated by the skin of my teeth, I had to put a man in his
place last week

Now why you wanna come at me?

I'm the wrong nigga to approach like that, homes
Wrong nigga for threats, lone nigga wit long chrome
And we can dance till one of us drop

You score points fallin wit good formation

I'm the wrong nigga for patience, wrong one at dunn

The very last nigga you should ever blast your gun

To the floor, actin like you goin to war

Now you fucked up, here come a real rocket launcher

Flame thrower, rule wit a iron rod

That be the Ruger, y'all niggas keep tryin hard

But who the loser when you can't walk your hood at
night

And you can't come outside without fear

Am I in your thoughts often? While you be walkin?

Foot soldier catch you at the store's corner

Keep me on your mind and don't slumber

Man the minute you slip wit those, that's your ass

Bounty Killer rhymes and chants

[Big Noyd]

M-O-B-B dunn, let's get it on dunn

Wit Bounty Killer, yo it's like this dunn

Aiyyo cock that shit, pop that shit

Squeeze off, let em know how real this is

M-O-B-B, D-double-E-P wit Bounty Killer

No other gun runners keep a round like this
>From Q-U-double-E-N-S, my bomb borough, till the
day of my death
Whether in shit I been in, runnin down the block
Sprayin shots wit the Lindon, listen
We all been through ac-tion, you know the last me
blastin
The last man standin, pack shit long than bare wake
Neither the jake nor the snakes gon' stop it
You know the Mobb lettin off rockets
Gun burners spit like lungies, dummies
Still nuttin pop but the shells, these ain't words from
hell
These are slugs, something you feel
A gun runner nigga for real nigga

[Havoc]

Yo hear my gat blow, make you spit out crack
The actual, that brand new six that you couldn't seem
to whip
Empty the clip, make sure no friendly get hit
While you layin bloodied up in the six
Flee the frontline, dismantle gap and bounce
Then watch the twelve o'clock news and hear them
shout you out
Plug leak, slip rug right from under your feet
You runnin the streets, you don't want no problems wit
us
Everyday is like Fourth of July to us
Henny in my cup beside the gat you'll find in my clutch
Interfere wit the plan and you will get touched
Let the liquor talk for you and you will get touched
Full fledge, like Ra let em Know The Ledge
While you slippin off edge, your shorty's givin me head
Cockin em legs like guns when I'm cockin to spray
Poppin your way, sendin shit that's hot your way
