### "Hard Times"

Hard times is about to get me  
Hard times, they hurt my hands  
Hard times, it took my woman  
Hard times lead her to a richer man  
Caught in the middle of some fool's advice  
If you work real hard, you get a piece of the pie  
Can't you hear that laughing  
No, the jokes don't end  
Consider my resources, it's a hard time to eat  
Hard times, it's rough all around  
Hard times, it's all gonna end  
Hard times, just thinking about it  
Consider my resources, it's a hard time to eat  
Hard times  
Hard times  
Hard times
