That laa laa, laa laa, laa laa laa, laa  
Smoke it up, smoke it up, smoke it up

Now 'fore you roll this shit, settle down, young girl  
Before we smoke this shit, settle down, young girl  
You rollin' witcha boy, you're chillin' witcha boy  
And this is how it is when you fucks withcha boy

So let's smoke this shit, settle down, young girl  
You can't be too quick, settle down, young girl  
Let's do this thing right, it's goin' down tonight  
And I promise everything'll be alright

Now shawty, roll it, roll it, roll it  
Make sure you close it, close it, close it  
I'ma show you how to hold it, hold it, hold it, hey  
Now puff puff, give that shit back to your nigga

We on that laa laa  
One hit'll make you fly, fly  
And all you gotta do is try, try  
And trust me, girl, trust me, girl

Oh, we on that laa laa  
One hit'll make you fly, fly  
And all you gotta do is try, try  
And trust me, girl, this thing'll have a happy ending,  
hey

Now that we done smoked this shit, throw it down,  
young girl  
Get up in this bed, take it down, young girl  
You do you boy right and everything I like  
So I'ma rock your body all night

We makin' love in 3D, I'm puttin' it down, young girl  
And every time you see me, I put it down, young girl

So after tonight it'll never be the same  
So go on and roll that second one, let's do this shit  
again

Shawty, roll it, roll it, roll it  
Make sure you close it, close it, close it  
I'ma show you how to hold it, hold it, hold it, hey  
So puff puff, give that shit back to your nigga

We on that laa laa  
One hit'll make you fly, fly  
And all you gotta do is try, try  
And trust me, girl, just trust me, girl

Oh, we on that laa laa  
One hit'll make you fly, fly  
And all you gotta do is try, try  
And trust me, girl, this thing'll have a happy ending,  
hey

Now girl, I'ma let you know  
That you just need to take it slow  
'Cos this ain't your regular kinda smoke  
Baby, we gon' get so high, drift up to the sky  
Hit, girl, I promise I know

And baby, you can roll it, close it  
Light it up and smoke it  
Just because this is your first time  
And I'ma gon' touch you, tease you  
Lady, I'm gon' please you  
I'm gon' do your body right

But first you gotta puff puff  
Give that shit back to your nigga

We on that laa laa  
One hit'll make you fly, fly  
And all you gotta do is try, try  
And trust me, girl, just trust me, girl

Oh, we on that laa laa  
One hit'll make you fly, fly  
And all you gotta do is try, try  
And trust me, girl, this thing'll have a happy ending,  
hey

Laa laa, fly, fly, try, try  
Laa laa
