Always falling for the pretty face,  
Nice thick thighs and a small lil waist.  
Oh baby, I just can't walk away from you.  
She's like an Almond Joy.  
She's my muse, she's my toy.  
Oh baby, I can't walk away from you.

It starts with a nice perfume,  
Then it's from the car to the living room  
Then it's "Hear me later, I wanna see you soon for  
dinner."  
I'm all in to you.

And I love you girl,  
You're the only thing that crosses my mind.  
It doesn't matter your profession,  
Stripper, baby momma or wife.  
I'll still be tippin' for life  
Tippin' for life, tippin' for life, tippin' for life.  
You got me tippin' for life,  
Tippin' for life, tippin' for life.  
You got me tippin' for life,  
Tippin' for life, tippin' for life.  
I'm tippin' for life,  
Tippin' for life, tippin' for life.  
Tippin', tippin', tippin', tippin' for life.

I'll always fall for the love we make.  
And just like my money, you take my breath away.  
Oh baby, I can't walk away from you.  
The reason why I sing,  
The reason why I bling,  
The reason I go out and buy all these things.  
Oh baby, I can't walk away from you.  
Every gesture I make is to impress you,  
Work my ass off just so I can undress you.

And then dress you in whatever you want boo,  
I'll go get it, she gonna spend it.

And I love you girl,  
You're the only thing that crosses my mind.

It doesn't matter her profession,  
Stripper, baby momma or my wife.  
You'll still be tippin' for life,  
Tippin' for life, tippin' for life, tippin' for life.  
You got me tippin' for life,  
Tippin' for life, tippin' for life.  
You got me tippin' for life,  
Tippin' for life, tippin' for life.  
I'm tippin' for life,  
Tippin' for life, tippin' for life.  
Tippin', tippin', tippin', tippin' for life.

First I'll tip the strippers,  
Then I'll tip the babysitters.  
And if I wife her up, I gotta ice her up,  
Tip the waiters out to dinner.  
And now I'm tippin' in the church,  
A long way from them stripclubs, no dancers.  
But if she ever leaves me I'll still be tippin' for life,  
Tippin' for life, tippin' for life, tippin' for life.  
Tippin' for life, tippin' for life, tippin' for life.  
Said it's alright and it's okay that I'm tippin' for life,  
Tippin' for life, tippin' for life,  
I'm tippin' for life.  
Tippin' for life, tippin' for life.  
Tippin', tippin', tippin', tippin' for life.
