(What happened to the days we were in love..)
(I wanna go back to the way it was)

Lately, you and me ain't talking much lately.
And the way you're act is driving me crazy.
Cause something's wrong, talk to me, what's going on?
Nothing, everytime I ask what's up, you say its nothing.
Baby, I could tell you're fronting.
Something's on your mind but you're acting like
everything's alright.

(So why) So why do you keep on pretending
(pretending)
That everything is still okay (Okay)
Don't you still want the happy ending (Don't you)
Don't you still want to be with me (To be with me)
What happened to the days we were in love?
Nothing came between the two of us.
I wanna go back to the way it was (Back to the way it
was)
Why can't we go back to the way it was.
Can you remember when we were still friends.
Now every other day is another arguement.
I wanna go back to the way it was.
Why can't we go back to the way it was.
[Way It Was Lyrics On]
Slowly, without you here I'm dying so slowly.
And I need you near cause no one else knows me, not
the way you do.
And I can't braethe without you here.
(Its obvious I need you) And you need me.
(What are we going to do) So baby why can't we
(Why can't we work it out) Work it out (Yeah)
Isn't that what love's about?

(So why) So why do you keep on pretending
(pretending)
That everything is still okay (Okay)
Don't you still want the happy ending (Don't you)
Don't you still want to be with me (To be with me)
What happened to the days we were in love?

Nothing came between the two of us.
I wanna go back to the way it was (Back to the way it was)
Why can't we go back to the way it was.
Can you remember when we were still friends.
Now every other day is another argument.
I wanna go back to the way it was.
Why can't we go back to the way it was.

I'm tired (I'm tired of fighting)
And inside (I'm dying)
I want to do (Do it by you)
By you (Girl what I'm saying is..)
I can't take losing you (Oooh)

(x2)
What happened to the days we were in love?
Nothing came between the two of us.
I wanna go back to the way it was (Back to the way it was)
Why can't we go back to the way it was.
Can you remember when we were still friends.
