(feat. Eric Clapton)

Well I feel like I'm running down a dead end road
Yes I feel like I'm running down a dead end road
I need some someone to tell me which way I ought to
go

Say good by to the morning hello weekend time
Say good bye to the morning down the road I am flying
If I look way beyond me I'll be getting way behind

I can't seem to catch up distance keeps falling away
I can't seem to catch up distance keeps falling away
Makes no difference where I go dead end road every
way

I feel like I'm running down a dead end road
Well like I'm running down a dead end road.
I need some one to tell me which way I ought to go
