

J. J. Cale "Digital Blues"

Visit "[Digital Blues](#)" on MotoLyrics.com

I've got the digital blues, my soul is just another
number

I've got the digital blues, my soul is just another
number

You check it out, we're all the same

You check it out, we're one again

I've got the digital blues, my soul is just another
number

Three forty-four point six, is that really me?

Three forty-four point six, you're kidding me

How did we get into the shape we're in?

I check it out, I'm one again

I've got the digital blues, my soul is just another
number

In the year thirty-two thirty-two

How will they remember me?

In the year thirty-two thirty-two

How will they remember me?

My appetite will be a digital code, information in the
new code

I've got the digital blues, my soul is just another
number

I've got the digital blues, my soul is just another
number

I've got the digital blues, my soul is just another
number
