Sometime in the morning
Before the break of day
I lose my direction
I can't find my way

I can't find nobody
To tell my troubles to
I get so sad and lonesome
Guess I'll tell 'em all to you

Got me at a disadvantage
You had me outta here
I just want loving
The way don't seem clear

Got me at a disadvantage
That's the way I feel
Love is forever
Love is for real

Some kind of fascination
That's the reason why
First time I seen you
You were so shy

Got me at a disadvantage
That's the way I feel
Love is forever
Love is for real
