Guitar man  
Tell me what your secret am  
Tell me please  
Can you put my mind at ease?

When you're standing in the spotlight  
With all the girls around  
I was wondering how you do it  
How you make that sound?

Guitar man  
Tell me what your secret am  
Tell me please  
Can you put my mind at ease?

Your fingers move so swiftly  
Across those silver strings  
It looks so nice and easy  
How you make it sing

Guitar man  
Tell me what your secret am  
Tell me please  
Can you put my mind at ease?

Guitar man in a guitar jam  
Playing low, playing slow  
Playing loud, working the crowd  
Playing high, you seem to fly

Guitar man  
Tell me what your secret am

{Uh, Hey man, have you seen my Stratocaster?  
Hand me that Gibson over there, will you?  
Let my try out your Martin, man  
Do you mind?  
Just plug it in that Marshall  
Turn it up a little bit louder}
