Hard times, hard times
Is about to get me, is about to get me
Hard times, hard times
They hurt my hands, they hurt my hands

Hard times, talk about hard times
It took my woman, took my woman
Hard times, hard times
Lead her to a richer man, lead her to a richer man

Caught in the middle of some fool's advice
If you work real hard, you get a piece
You get a piece of pie

Can't you hear that laughing
No, the jokes don't end
Consider my resources, it's a hard time to eat

Hard times, it's rough all around
Hard times, it's all gonna end
Hard times, just thinking about it
Consider my resources, it's a hard time to eat

Hard times
Hard times
Hard times
