My woman, my woman, you know she cryin'  
She keeps me hanging on a bottle of wine  
She leaves no roads open, there ought to be a law  
She puts me right down here  
She keeps me right down here  
She holds me right down here  
Lord, I talk and talk about her, can't get her off my  
mind  
Cannot live without her, she keeps me on this wine  
She leaves no roads open, there ought to be a law  
She puts me right down here  
She holds me right down here  
She keeps me right down here

Lord, I talk and talk about her, can't get her off my  
mind  
Cannot live without her, she keeps me on that wine  
She leaves no roads open, there ought to be a law  
She put me right down here  
She keep me right down here  
She hold me right down here  
She puts me right down here  
She holds me right down here  
She keeps me right down here
