Don't take her for granted, she has a hard time  
Don't misunderstand her or play with her mind  
Treat her so gently, it will pay you in time  
You've got to know she's the sensitive kind  
Tell her you love her, each and every night  
And you will discover she will treat you right  
If you believe, I know you will find  
There ain't nothing like the sensitive kind

She gets lonely waiting for you  
You are the only thing to help her through  
Don't take her for granted, she has a hard time  
You've got to know she's the sensitive kind
