Who's talking, ain't no friend of mine
Who's talking, stirred it up
Who's talking, who's lying

Hard rumors, hard rumors, pay no mind
When you abuse you and spread your rumors
Somebody's talking, somebody's lying

Find out look who is shouting
When they say you've got to talk
Watch out [Incomprehensible]
Some day you're going to have a trouble

Who's talking, ain't no friend of mine

Who's talking, stirred it up
Who's talking, who's lying

Find out look who is shouting
When they say you've got to talk
Watch out [Incomprehensible]
Some day you're going to have a trouble

Who's talking, ain't no friend of mine
Who's talking, stirred it up
Who's talking, who's lying
