You don't look like my baby
And you don't feel quite the same
You don't touch quite like my woman
But you got something
I can't explain

The way you wear your clothes drives me crazy
Way you walkin' 'round, just a hanging 'round
I can't stand it, what you're doing
You got something
I can't live without

The way you wear your clothes drives me crazy
Way you walkin' 'round, just a hanging out
I can't stand it, what you're doing
You got something
I can't live without

I can't stand it, is what you're doing
You got something
I can't live without
