CAUGHT IN LOVE

By J. Moss

You caught me in love  
You changed my life the day I said, Yes to you  
You made a difference nobody else could seem to do  
Nobody else could make me change all of my ways  
and say the words that take pains away  
Nobody else can do, the things that help you prove that  
my world cannot exist without you

Chorus

Tell me how,  
How many times could you run away  
Before you're caught in love  
I thought it couldn't be done  
Tell me how  
How many times could you smile all day  
Before you're caught in love  
I thought it couldn't be done

(I was wrong) You caught me  
Hey hey hey hey hey hey hey  
You caught me  
Hey hey hey hey hey hey hey  
You caught me in love

You make dreams out of impossible scenes (anybody  
know what I'm talking about?)  
You make my life flow with all amazing things  
Nobody else has a name that will break away the  
chains and free me from all bondage (Father)  
Nobody else can take me further than a plane to a  
place that bears no heart ache

Chorus

Howwwwwwww  
How many times could you run away  
Before you're caught in love  
I thought it couldn't be done  
Noooo how

How many times could you smile all day  
Before you're caught in love  
I thought it couldn't be done

(I was wrong), You caught me  
Hey hey hey hey hey hey hey  
You caught me yeah  
Hey hey hey hey hey hey hey  
You caught me  
Hey hey hey hey hey hey hey  
You caught me yeah  
Hey hey hey hey hey hey hey  
You caught me in love

How many times could you run away  
Before you're caught in love  
I thought it couldn't be done  
But I didn't know what I was missing  
How many times could you smile all day  
Before you're caught in love  
I thought it couldn't be done

I gotta stop running  
How many times could you run away  
Before you're caught in love  
I thought it couldn't be done  
Thank you for sweeping me off my feet, yeah  
How many times could you smile all day  
Before you're caught in love  
I thought it couldn't be done

You caught me yeaaaaah  
You caught me in love
