(without you baby, i feel worthless. I'm living on the edge)

Verse I

It's been an hour, since you've been gone

and thats too long, so come back home

Can't live without you

So I cry for you

Do anything that I can

to feel that touch from your hand

sorry that i want you

baby what do i do

Hook I

You know you're everything I do (Oh yeah)

do what you want me to (i would do anything)

and all my need is for you (Oooh baby)

what else is there to do (i don't know, I don't know but ill cry)

Chorus (x2)

Baby I, will cry for you, tonight (tonight i cry for you)

Verse II

Just hold me girl, like a child

when you're not here I can't even smile

can't think without you

my mind is always with you

It's amazing what you do

to keep me falling in love with you

girl you're all that i know

where else will I go

Hook II

I said you're everything I do (Ooooh baby)

do what you want me to (anything you need from me baby)

and all my need is for you (Ooooh)

what else is there to do (I don't know, I don't know but I cry)

Chorus (x2)

Baby I, will cry for you, tonight

Bridge

Baby I'm begging

Baby I'm begging (begging, baby)
