Life in the balance
They play with the numbers
To work every day
You got to be accounted
The girl is a dream
The real one will work
The rock up the hill
The greek myth at work

Time waits for no one
It follows you 'till done
You make your line or you blow it
It's do or die and you know it
Life in a mold
Used his mind and broke it
Preachings next lie - blow it
Useless and die - know it
Like him be us
And believe that all our causes are just
'cause we know the only way
So live like us - your dying day
[Chorus]
They call themselves whatever
Their message the same
Be like us and you'll be the same
But they die
And we die
Too bad you weren't happy
In your tent peg society
[Chorus]
