(feat. Eric Clapton)

Well I met this old woman

She was hard as nails

I think she just come out of the

County jail

Would I loan her some money

Just to pay her rent

If I would she would put me

In her

Last Will and Testament

Well I've got lots of children

An ex-wife or two

I never hear from them

'til the bills are due

The money I gave them

They already spent

If I could just help 'em out

They would put me in their

Last Will and Testament

You know I'm goin' over sixty

I'm older than most

It won't be long now
I'll be nothin' but a ghost
My intentions
It's my intent
To leave all of them people
Out of my
Last Will and Testament
And when it's all over
They put you in the ground
Send my belongings
To the Lost and Found
My intentions
It's my intent
To leave all of them people
Out of my
Last Will and Testament
