Visit "[You Got Something](#)" on MotoLyrics.com

You don't look like my baby
And you don't feel quite the same
You don't touch quite like my woman

But you got something
I can't explain

The way you wear your clothes drives me crazy
The way you walk around, just hanging 'round
I can't stand it, what you're doing

You got something
I can't live without

The way you wear your clothes drives me crazy
The way you walk around, just hanging out
I can't stand it, what you're doing

You got something
I can't live without
