"Kiss Me Goodbye"

Visit "[Kiss Me Goodbye](#)" on [MotoLyrics.com](#)

You didn't kiss me goodbye
Didn't give me one last chance
To feel the love that we once shared
You didn't hold me close
Baby when I needed you most
You just left my heart wondering why
You didn't kiss me goodbye

It can't be really over between us
I keep looking over my shoulder
To see you coming back because
(Repeat Chorus)

Girl you ripped me in two
You knew just what to do
To tear every dream we built down
Yeah when you made me cry
You did it right
But you left one thing out

(Repeat Chorus)

You just left my heart wondering why

(Repeat Chorus)
