Lights and the cameras, the trips from New York to  
Paris  
It seems I never I never can manage to say that I, I  
never had time  
Living my life on the road, and every city... I should  
have picked up the  
Phone  
And say that I, I never had time  
I never had time, time I need to stay, there was... one  
for me

Everybody you was said you was shit, girl,  
... girl, the one I'm really trying to get with girl  
Not... kinda like a refill  
I feel, can it get any better,... gonna make my...  
Spread it on the... we've been around the world seen  
these bitches...  
How did we meet... I've been wonderful experience real  
love  
I really wanna explore love, I just never had time

I never had time, time I need to stay, there was... one  
for me  
Living my life on the road, and every city... I should  
have picked up the  
Phone  
And say that I, I never had time  
...  
I've been really trying to be someone I never been  
Trying to visualize something I never seen  
And if I can't see it,...  
I'm just trying to be more than a memory  
Remember me, miss me when I'm gone  
... dead long  
I need to get away from it all  
The niggas, the bitches, the bizness  
Like... say, the hardest part is money you own  
... I'm on the bitch with my feet up, money call  
... I kinda think you was waiting on my call  
I just never had time

I never had time, time I need to stay, there was... one  
for me

If I'll never get the chance to say, them 3 words so  
famous  
... depending how you go through  
Me myself, I'm more... I'm here, but never there for  
the...  
Especially know how we still do it...  
So selfish, but so...  
If there's anything you learn from this is  
Don't let your feelings... I wish I would have told you  
Never had time

for 3
