Yeah, yeah
Yeah, yeah
You know
Lets go
Yeah, yeah
Yeah, whut's my name?

They cool but they ain't R.U.L.E
They do but don't do it like me
Nobody, nobody, does it like R.U.L.E
They do but don't do it like me
Nobody, nobody, does it like R.U.L.E

Nobody's livin' life the way that I live it
Nobody's spittin' and doin' it, I spit it
But who fuckin' admitted
I'm one of the bigger biggest of niggaz that done did it
Been hated and dealt wit it, when agents tap in my
lyrics
So by the time that they hear it, the crime's already
committed
Natural Born Killa, but that I'm already and then
Murda was the case, but INC's been acquitted

The Agency's gettin' livid, they wanted us to be
finished
But we got unfinished business, Sned God as my
witness
This is another testimony to my life and my story
Askin' you hoes, why should I talk when I got guns to
speak for me?
Don't come at me homie especially tryin' to act like you
know me
Only if you can control me, know where you been
chosen before me
To sit in ya grave, homie dig it, I'm hearin' its lonely,
but see

Nobody does it like me
And they know it they can't spit it the same
But still they try, 'cuz that's part of the game, whut's my
name?

They cool but they ain't R.U.L.E
They do but don't do it like me
Nobody, nobody, does it like R.U.L.E
They do but don't do it like me
Nobody, nobody, does it like R.U.L.E

These niggaz incredible, throughout the ghettos of
America
People, see these window I see through
Off they mirror they evil, jealous bullshit that men do
Had I known it was you, there'd be no clue on who done
killed you
Like when Kane murda Able, niggaz must have been
able
To put Kane through they nasals, they so high they see
angels
I see life from all angels, tangled, webs and weaves

Now niggaz is able to kill like Kane all over the streets
100 degrees ferenheite, hot as the hottest summer
night
Heatin' up desperately in the need of some ice, I'm
nice
Nobody's quite like, flow like rare blood types
I be wrong if I'm right, right if I'm wrong, I was the rule
born
When my legacy is left through my boys maiden name
live on rule
Niggaz is foolish tryin' to do whut I do, 'cuz see

Nobody does it like me
And they know it they can't do it the same
But still they try, 'cuz that's part of the game whut's my
name?
They cool but they ain't R.U.L.E
They do, but don't do it like me
Nobody, nobody, does it like R.U.L.E
They do but don't do it like me
Nobody, nobody, does it like R.U.L.E

They cool but they ain't R.U.L.E
They do, but don't do it like me
Nobody, nobody, does it like R.U.L.E
They do but don't do it like me
