If I got before I wake, they can say I never did it
A lot of these niggers they gonna never say they did it
Like abbreviated words you just feel like something's
missing
I can dig it I can cure you might hear me if you listen
Prefer to be different so gifted, I'm cursed
No mystery, I'm first for kissin'
The fuck is that [?]
They can never see that 4 door coupe
The glass roof in that look like [?]
[?] pushing rather [?] window tinted, he must be an
athlete
Na nigger it's just lil' ol' me
How you [?] don't be [?]
My life is kobain [?] the od
And speak my mind like fuck the police
They should free 'Wayne and let 'Rule be, let's start
shooting straight to the [?]

Keep them rocking till the sun gonna drop
Keep spending money cause I got it so much
Club banger make them all show up
Ain't a sign it's going down cause we're going straight
to the top
Chain swinging, hanging low to the top
Keep sipping if you going to the top
Can't stop going straight to the top

If I never catch a break, it's cause I can't be broken
Never give up hope if I did I would be hopeless
Never wanna lose focus cause I'm a visionary
I can see far, I can see if it's a FOX and expose it
Why don't you [?] every [?] you know me
Save your secondart [?] commentary witness [?] you
overhear it
Damn canaries, you can hear them singing

Rock tunes like the 'Stones that make your spirits
[?] this is real shit, in my presence to walk you should
feel privileged
So arrogant, so confident. [?] I can't tell the difference

Muah, kiss myself G Simmons
Sometimes I get high, my sky has no limits
And why should it, when men have walked on the moon
just to be amongst stars [?] you can meet me at the top

Keep them rocking till the sun gonna drop
Keep spending money cause I got it so much
Club banger make them all show up
Ain't a sign it's going down cause we're going straight
to the top
Chain swinging, hanging low to the top
Keep sipping if you going to the top
Can't stop going straight to the top
Meet me at the [?] we going to the top
[?] shout out to my niggers from [?]
Bring it back to the east coast and party like we been
here
We throwing hun'eds, we throwing twenties, we got the
whole motherfucking club jammin'
We ain't running, we see them coming, [?] so we don't
give a fuck

Keep them rocking till the sun gonna drop
Keep spending money cause I got it so much
Club banger make them all show up
Ain't a sign it's going down cause we're going straight
to the top
Chain swinging, hanging low to the top
Keep sipping if you going to the top
Can't stop going straight to the top
Meet me at the [?] we going to the top.
