"Call Me"

Visit "[Call Me](#)" on MotoLyrics.com

I think about love, I think about life, I think about rock
I think about the times we used to hangout after school
I think about things, I think about you
I think about love, I think about life, I think about God
I think about the times we were loser acting cool
I think about you

You better call me if you're going under
You better call me before I lose another friend to
misery
And if you're lonely, the we could T.P. just like we're
thirteen
Throwing our worries over rooftops and running off
And if ever you stumble, if ever you crumble
Just know I won't let you go
