I'm ready for my detonation
Slipping into preparation
Going to breakdown emission
Feeling the light transmission

Blow me up, like an atom bomb
Blow me up, like your new hit song
Blow me up, like a sex doll
Blow me up, like a building tall

Give me your foolish blessing
In these waters we're testing
I'm just only second guessing
With every cop here arresting

Blow me up, like an atom bomb
Blow me up, like your new hit song
Blow me up, like a sex doll
Blow me up, like a building tall

Cut my veins and deeply the bleed
The oceans and the moon recede
Waiting for the information received
I'm being set off in one, two, three

Explosions in the air tonight
Explosions when it isn't right
Explosions every time we fight
Explosions when we see the light
