Hey now, hey now
Before I let you go away
Hey now slow down
There's a few things I must say
I know you know
There is gonna be a day
When I hear you say
You know I just can't stay

Though the birds are singing outside
My heart is still breaking deep inside
You and I are saying goodbye
But you just gotta stay

Hey now, hey now
We said it was you and me
But right now, some how
I can't let you leave
You don't have to go away
I'll be begging you to stay.
