Fight, waste your time argue  
I'll be, yeah that's good enough for me  
Labels, struggle for your pigeon hole  
Grabbing with both hands  
Snob, but you think your cool as fuck  
Talk shit about love and understanding  
Understand you're looking down your nose  
You only like the cool bands  
Ehhh this is what i say  
Yo this is what you mean to me  
You make me feel  
Fight, waste your time argue  
I'll be, yeah that's good enough for me  
Labels, struggle for your pigeon hole  
Grabbing with both hands  
Snob, but you think your cool as fuck  
Talk shit about love and understanding  
Understand you're looking down your nose  
You only like the cool bands  
What you are is what you think you are  
Are two different things looking down  
Your nose might do you now but when the  
Fat chick sings yo will be the empty one  
And that's a promise  
You will be the empty one  
Empty yaa  
What you are and what you think you are  
Are two different things looking down  
Your nose might do you now but when the  
Fat chick sings you will be the empty one  
And that's a promise  
You will be the empty one  
Empty one  
And that's a promise  
The empty one  
Empty yaa
