### "Hate Now"

Hate now, and I don't believe you cause you've  
changed now  
(I can't trust you)  
You hate now, and I don't believe you when you tell me,  
It ain't over, now

Hate now, can you tell me if its over  
Hate now, can you tell me if its not the same  
Hate now, can you tell me if its over  
And how you've changed

Hate now, and I don't believe you cause you've  
changed now  
(I can't trust you)  
Your faith how, it must suck shit, so rather sue you sue  
you

Break

I've watched you change  
From what you make

Frankly it sickens me and I find you pathetic

I've watched you change  
You didn't care  
You just took and took without any thought of anybody  
else  
I've watched you change

Where does your life take you late at night when  
nobody's there  
Where does your life take you late at night when  
there's nobody there  
Where does your life take you late at night when  
there's nobody there  
Where does your life take you late at night when  
there's nobody there
