Now listen you guys,
You know what normal kids would've instilled to slack off,
But not you guys, because you're not normal.
You're special.
And because i think you have the right attitude,
I think it's time we started our new class project.
A science project' no.
It's called.... rock band.
Is this a school project?
Yes.
And it's a requirement.
And it may sound easy, but nothing could be harder.
It will test your head, and your mind, and your brain too.
Will other schools be competing?
You could say that.
