Poor Jody a standin' on the same old corner it don't  
seem like the same old town  
You dreamed of the good life where a man could walk  
alone  
You walked out on a good wife oh it's too late she's  
gone  
Poor Jody leanin' on the same old lamp post watchin'  
the buses goin' up town  
Me and the neighborhood are feeling rundown  
Poor Jody don't seem like the same old town  
[ guitar ]  
You're the last of the old gang the last hang around  
The years seem to fly by oh where have they gone

Poor Jody leanin' on the same old lamp post...  
Poor Jody poor Jody poor Jody poor Jody
