

Jack Bruce "Politician"

Visit "[Politician](#)" on MotoLyrics.com

Hey now baby, get into my big black car
Hey now baby, get into my big black car
I want to just show you what my politics are

I support the left, though I'm leaning to the right
I support the left hey, though I'm leaning to the right
I'm just not there when it's coming to a fight

I'm a political man, and I practice what I preach
I'm a political man yeah, and I practice what I preach
So don't deny me baby, not while you're in my reach
Yeah come on baby, come on baby

Hey baby, get into my big black car
Hey baby, get into my big car
I want to just show you what my politics are
Come on baby yeah

Hey yeah baby, get into that big black car
Ooo yeah baby, get into my big car
I want to show you what my politics are
I want to just show you what my politics are
I wanted to show you what my politics are yeah
Yeah hey
