If only I could walk out in the sunshine  
And see the world a way my eyes should see  
And if only I could hold a hand of someone who loves  
me  
Without your shadow hanging over me

You turned my world into a shady garden  
You placed yourself between the sun and me  
Oh, if only I could feel the arms of someone who needs  
me

Without your shadow hanging over me

Without your shadow hanging over me  
I could be what I want to be  
There's so many things these eyes of mine  
Would love to see that's good for me  
Without your shadow hanging over me  
Without your shadow hanging over me
