[ Both ]

Yearning to be with the one I can't agree with yearning  
to hear you call my name

Like a fool I left you and now I can't forget you please  
forgive me take me back again

[ Jeannie ]

I'll never be the same without you darling

[ Jack ]

You'll always be my everything

[ Both ]

My love for you's still burning and my poor heart is  
yearning

While you wear another's name

[ fiddle ]

Yearning to hold you and let my arms unfold you  
yearning to hear you call my name

Yearning to kiss you oh darling how I miss you oh how I  
wish you felt the same

[ Jeannie ]

I never knew how much you cared about me

[ Jack ]

I thought you were fooling from the start

[ Both ]

Yearning to kiss you oh darling how I miss you

I wish that we could make commance sweetheart
