(Campbell, Deery, Santoriello)

When she puts herself together she tears me all apart
She goes right to my head like a bullet through my
heart

She looks so sweet and innocent, standing cool and tall
And she keeps me coming back for more just to see
me crawl.

She's one shot temptation, two shots ecstasy. She's my
Long, Long Island Iced
Tea

She goes down easy, brings me to my knees. She's my
Long, Long Island Iced Tea

Yeah, on a hot summer evening well she lets the good
times roll

I know that when I find her, I lose my self control
She's an angel, she's a devil she's a voodoo vixen child
I may be hurtin' in the morning but tonight I'm runnin'
wild

She's one shot temptation, two shots ecstasy. She's my
Long, Long Island Iced
Tea

She goes down easy, brings me to my knees. She's my
Long, Long Island Iced Tea

A kiss of danger at my fingertips. Her spirit fills me up
her taste is on my
lips.

My magic potion, my bitches brew. Yeah, she's got me
doin' things I never
thought I'd do

She's one shot temptation, two shots ecstasy. She's my
Long, Long Island Iced
Tea

She goes down easy, brings me to my knees. She's my
Long, Long Island Iced Tea

She's one shot temptation, two shots ecstasy. She's my
Long, Long Island Iced
Tea

She goes down easy, brings me to my knees. She's my
Long, Long Island Iced Tea
