Some people will tell you it's impossible
To do what you wanna do
Even some we call family
Try to stop our growth too, sometimes they do

But it's all just a matter of time
Waiting for your stars to align
Then the day arrives, open wide
See your destiny, what was meant to be

Nobody knows, all the people try to tell you so
You gotta see, what your soul is telling you to be
Free to believe

All who chose to hate you and all you set out to do
Everything you try to do, they're gonna hit on you
Fuel for the fire burning bright inside of you
All the people said you lead the way
Will pat you on the back, still talking shit today
They'll all be laughing in your face

Who's gonna live your life, gonna make you right
Gonna do your time, gonna make it happen
You gonna see you cry, you can change your life
If you change your mind, you can make it happen
