Jack Ingram
"Happy Happy (Country Country)"

Happy, happy, country, country
Somethin' snappy, somethin' funny
Make 'em laugh, make 'em have a good time
Don't make 'em lonely 'cause it makes 'em cry

Just give 'em happy, happy, country, country
That's what they want, man, to feel that funky
Happy country music's gonna make 'em think
Everythin' is gonna be all right

So many people feelin' afraid
It looks like everybody's got it made
So many others feelin' alone
Got no one to love 'em when they get home

Give 'em happy, happy, country, country
Somethin' snappy, somethin' funny
Make 'em laugh, make 'em have a good time
Don't make 'em lonely 'cause it makes 'em cry

Just give 'em happy, happy, country, country
That's what they want, man, to feel that funky
Happy country music's gonna make 'em think
Everythin' is gonna be all right

They go to the bar to get away
From all the problems of everyday
Don't need another tear in my beer
I got enough problems, don't bring them here

Happiness and love that's lost
We all want it and we pay the cost
But tonight let me get away
And talkin' to the people, the people say

Give us happy, happy, country, country
Somethin' snappy, somethin' funny
Make us laugh, make us have a good time
Don't make us lonely, Jack, it makes us cry

Just give us happy, happy, country, country
That's what we want, man, we're feelin' funky

Happy country music's gonna make us think
Everythin' is gonna be all right

Yeah, happy country music's gonna make us think
Everythin' is gonna be all right
Beer thirty, it's honky tonk town
