It's as simple as something that nobody knows
That her eyes are as big as her bubbly toes
On the feet of a Queen of the Hearts of the cards
And her feet are all covered with tar balls and scars

It's as common as something that nobody knows
That her beauty will follow wherever she goes
Up the hill in the back of her house in the wood
She love me forever, I know she could

I remember when you and me
How we used to be just good friends
Wouldn't give me none
But all I wanted was some

She's got a whole lot of reasons
She can't think of a single one that can justify leaving
And he got none, but he thinks he got so many
problems
Man, he got too much time to waste

His dreams are like commercials
But her dreams are picture perfect
And our dreams are so related
Though they're often underestimated

It's as simple as something that nobody knows
That her eyes are as big as her bubbly toes
On the feet of the Queen of the Hearts of the cards
And her feet are infested with tar balls and

La da da da da da
La da da da da da da
La da da da da da
La da da da da da da da

Well, I was eating lunch at the D.L.G
When this little girl came and she sat next to me
I never seen nobody move the way she did
Well she did, and she does and she'll do it again

When you move like a jellyfish

Rhythm don't mean nothing
You go with the flow
You don't stop

Move like a jellyfish
Rhythm is nothing
You go with the flow
You don't stop

It's as common as something that nobody knows it
Her beauty will follow wherever she goes
Up the hill in the back of her house in the wood
She'll love me forever, I know she

La da da da da da
La da da da da da da
La da da da da da
La da da da da da da da

If you would only listen
You might just realize what you're missing, you're
missing me
If you would only listen
You might just realize what you're missing, you're
missing me

It's as simple as something that nobody knows
That her eyes are as big as her bubbly toes
On the feet of the Queen of the Hearts of the cards
And her feet are infested with tar balls and

La da da da da da
La da da da da da da
La da da da da da
La da da da da da da

La da da da da da
La da da da da da da
La da da da da da
La da da da da da da
