It's as simple as something that nobody knows that her
eyes are as big
as her bubbly toes
on the feet of a queen of the hearts of the cards and
her feet are all
covered with tar balls and scars
It's as common as something that nobody knows that
her beauty will
follow wherever she goes
up the hill in the back of her house in the wood she'll
love me forever,
I know she could

I remember when you and me mmm how we used to be
just good friends
Wouldn't give me none
But all I wanted was some

She's got a whole lot of reasons
She cant think of a single one
That can justify leaving
and he got none but he thinks he got so many
problems
Man he got, too much time to waste

His dreams are like commercials
But her dreams are picture perfect and
Our dreams are so related though they're often
underestimated

It's as simple as something that nobody knows that
Her eyes are as big as her bubbly toes
On the feet of the queen of the hearts of the cards
And her feet are infested with tar balls and

La da da da da da
La da da da da da da
La da da da da da
La da da da da da da da

Well I was eating lunch at the D. L. G.

When this little girl came and she sat next to me
I never seen nobody move the way she did
Well she did and she does and she'll do it again

When you move like a jellyfish
Rhythm don't mean nothing
You go with the flow
You don't stop
Move like a jellyfish
Rhythm is nothing
You go with the flow
You don't stop

It's as common as something that nobody knows it
Her beauty will follow wherever she goes
Up the hill in the back of her house in the wood
She'll love me forever, I know she

La da da da da da
La da da da da da da
La da da da da da
La da da da da da da da

If you would only listen
You might just realize what you're missing
You're missing me
If you would only listen
You might just realize what you're missing
You're missing me

It's as simple as something that nobody knows that
Her eyes are as big as her bubbly toes
On the feet of the queen of the hearts of the cards
And her feet are infested with tar balls and

La da da da da da
La da da da da da da
La da da da da da
La da da da da da da

La da da da da da
La da da da da da da
La da da da da da
La da da da da da da
