Trouble travels fast
When your specially designed for crash testin'
Wearin' wool sunglasses in the afternoon
C'mon, tell us what you're trying to prove
It's a battle when you dabble in war
You stole it up,
Unleash it,
Then piece it together
Whether storm drain random, stamp it,
Send it to somebody pretendin to care
Just cash in your blanks
For little toy tanks
Learn how to use them and abuse them
and choose them over
Conversations, relationships, are overrated
i hated everyone said the sun
so will cook all your books
your too good lookin and mistaken
you could watch it instead from the comfort
of your burning beds
well you could sleep through the static
(chorus)
Well who needs sleep when we got love
and who needs keys when we've got clubs
and who needs police when we've got guns
we've gone beyond where we should've gone above
but beyond where we've should've gone
we went beyond where we should've gone

Stuck between channels my thoughts all quit
i Thought about them too much
allowed them to touch
the feelings of rain down on the planes
all dried and cracked
waiting for things that never came
well such a shocking thing to make somebody think
they have to choose pushin for peace
suportin the troops
and either your weak
or you use brute force feed
truth is say not as we do
ya say anytime, anywhere

just show your teeth
and strike a fear
God wears camouflage
cries at night
and drives a dodge, pick up
the beat, stop hoggin the feast
thats no way to treat an enemy
Mighty, mighty appetite
we'll just em up
and keep on drivin'
freedom can't be freezed
take a picture from the pretty side
min d your manner
wave your banners
what a wonderful world this angle can see
(chorus)
Oh Jesus i love you and i love Buddha too
???
Why do people say
that there is just one way one to love you
God i come to you
we are all apart of you
is the universe your thought
you are and you are not
you are all and you are non
every end or just begun
Alright x3
I love you and Buddha too
